

Junior Badges

Juniors are able to claim two different badges for their progress through orienteering. These are the Event and Colour Course badges. Event badges can be claimed for the completion of 5, 10, 25, 50 and 100 events. Colour course badges can be claim for completion of the course in the qualifying ranges.

Juniors can also work towards the star awards, these progress from 1 to 4 Star. This award system enables juniors to keep track of their own progression through learning the different skills and with the help of coaches can fill in any gaps. Regular coaching is available to complete these.

The spreadsheet which is in excel or PDF format can be used to record the information. The introduction page explains the badges and star awards. There are tabs along the bottom of the excel document for event and course badges. At the top of the spreadsheets there is an explanation for the badges and how to claim them. There is a tab for the star awards and on the introduction page these are explained further along with how to claim them. The PDF version has all the same tabs just across the different pages.
